Subject: FW: score over length search 09/904,568

And one more time,

I need a score over length nucleotide sequence search against nucleotides 132 through 966 of SEQ ID NO:1 and to nucleotides 132 to 966 of SEQ ID NO3 in the above entitled case. I need the lower and upper limits to be 8 and 50, respectively, I need any hits that are above 65% complementarity, and please transfer as many hits into the excel program as possible. There is no need to search the interference databases at this time.

Thanks,  
Doug Schultz
